Monthly figures have been calculated based on 38 CFR §3.29(b) – see below – and have not all been confirmed as of 12/12/2016.

38 CFR §3.29 Rounding.

(a) *Annual rates.* Where the computation of an increase in improved pension rates under §§3.23 and 3.24 would otherwise result in a figure which includes a fraction of a dollar, the benefit rate will be adjusted to the next higher dollar amount. This method of computation will also apply to increases in old-law and section 306 pension annual income limitations under §3.26, including the income of a spouse which is excluded from a veteran's countable income, and parents' dependency and indemnity compensation benefit rates and annual income limitations under §3.25.
 (Authority: 38 U.S.C. 5312(c)(2))

(b) *Monthly or other periodic pension rates.* After determining the monthly or other periodic rate of improved pension under §§3.273 and 3.30 or the rate payable under section 306(a) of Pub. L. 95-588 (92 Stat. 2508), the resulting rate, if not a multiple of one dollar, will be rounded down to the nearest whole dollar amount. The provisions of this paragraph apply with respect to amounts of pension payable for periods beginning on or after June 1, 1983, under the provisions of 38 U.S.C. 1521, 1541 or 1542, or under section 306(a) of Pub. L. 95-588.
